Workshop Hosting Information

The Center for Innovation in Education is the leading provider of math inservice in the country. Both of the courses listed below are aligned with the Common Core and NCTM Standards.

- Math Their Way (Grades K-2)
- Math a Way of Thinking (Grades 3-6)

Our math programs provide a manipulative-based, activity-centered approach to mathematics as an alternative to textbooks and worksheets. They focus on children developing an understanding of and insight into the patterns of mathematics. They help teachers understand how children can build relationships and interconnections in mathematics. The workshops emphasize the implementation of the Common Core and NCTM Standards appropriate for each grade level.

30-Hour Workshops

- It's FREE to host (attendees pay their own way).
- College credit is available in most states.
- Workshops may have from 15 to 40 participants.
- Fee waived for 1 helper for enrollments above 15.

Workshop helper attends at NO CHARGE

For paid enrollments 15 and above, 1 volunteer helper may attend the workshop at no charge in exchange for volunteering his or her time to support our instructors. Helpers assist the instructor on set-up day, which usually occurs on the day before the workshop begins and an hour before and after each day of the class. Helpers also have the same credit options as the participants.

Scheduling Options

- Workshops may be scheduled on weekdays, over weekends, or a combination of both.
- Workshops may be scheduled in a 4 or 5 day format.

Times

- 5 day format – 8:00 a.m. to 2:30 p.m. with a half hour lunch.
- 4 day format – 8:00 a.m. to 4:30 p.m. with an hour lunch.

Costs

Prices are subject to change. Check our website to confirm the workshop price. The Center covers the cost of the instructor expenses and standard shipping costs. The hosting site provides the workshop manipulatives/materials & covers any costs related to expedited shipping requests. The participants provide their own copies of the required texts and the materials to bring each day. Information on site materials will be found on the application.

We will help you advertise in 2 ways

The Center will provide a preprinted workshop flyer for the workshop so your school or district can advertise locally. Within a week of receiving your hosting application, we will list your workshop on our website.

Contact us if you have any questions!

Phone: (800) 395-6088 • Fax: (408) 725-8146 • Email: info@center.edu

Site contacts need to discuss the following with the selected workshop helpers:

Background on the Center

The Center for Innovation in Education is a nonprofit educational organization founded by Mary and Bob Baratta-Lorton. Workshops are scheduled by the Center and held around the country and internationally. The workshop is a 30-hour course run as a classroom model rather than a lecture format. Please visit our web site to learn more about the individual workshops and what the participants will need to bring to the course. The URL is as follows: <http://www.center.edu>

Benefits and Responsibilities for Helpers -- paid enrollments 15 and above

- Each helper may participate fully in the workshop tuition free in exchange for helping the instructor. Helpers are needed on set-up day as well as before and after the workshop throughout the course.
- Each helper may receive Center Graduate College credit or continuing education units.
- Each helper will be reimbursed for approved expenses (verified by receipts). Check with the instructor in advance. The Center does not reimburse for child care or the purchase of math manipulatives (e.g., pattern blocks, etc.) needed for the workshop. The site and the helpers need to coordinate the needed materials prior to set-up day. Helpers need to submit their instructor pre-approved expenses to the instructor within 30 days after the completion of the workshop.

Site Contact and/or Helpers

- Contact the instructor prior to the workshop and confirm the materials that your site will have available.
- Arrange a mutually convenient time to meet on set-up day. Helpers are needed on set-up day as well as before and after the workshop throughout the course.
